

TAURUS ARC-200DP HEAVY DUTY PULSE/SYNERGIC WELDER – 220V

Description

The TAURUS ARC 200 DP single phase, 200A, 220V stick-electrode welding machine is designed and manufactured to the latest digital-inverter technology for demanding industrial applications. The pulsed MMA welding system offers even stirring of the molten pool, eliminating porosity and ensures firm and deep penetration welding. It is a compact light-weight inverter machine which ensures a clean, high-quality weld and excels in basic and rutile electrode welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 25%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. Professional and DIY welders can experience the built-in characteristics of anti-stick, hot-start and arc-force.

ACCESSORIES

- Earth-clamp cable kit.
- Electrode-holder cable kit.

OPTIONAL EXTRAS

- TIG torch
- Argon flowmeter.

SPECIFICATION	DESCRIPTION
PRODUCT CODE	TA-ARC200DP
MODEL	ARC-200DP
RATED POWER SUPPLY INPUT	220V±10% SINGLE PHASE
DUTY CYCLE 40°C @ 10 MINUTES	35% @ 200A
OPEN CIRCUIT VOLTAGE	62V
WELDING CURRENT RANGE	20 – 200A
ELECTRODE SIZE	2.0 – 5.0mm
DIMENSIONS(mm) AND NET WEIGHT(kg)	465 x 225 x 320mm ? 5.5kg

Product Category

1. ARC Welding Machines
2. Taurus Machines

Date Created
29 Jul 2025
