

iWELD MMA-140 WELDER – 220V

Description

iWELD MMA-140 WELDER – 220V

The iWeld MMA-140 is a 140A single phase, 220V stick electrode welding machine which is designed on and manufactured to the latest digital inverter technology. It is compact, light weight with a single PCB allowing for easy mobility. The MMA-140 inverter machine ensures a clean, high quality weld and excels in basic and rutile electrode welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 25%. Professional and DIY users can experience the built-in characteristics of anti-stick, hot-start and arc force.

ACCESSORIES
