

MASTER BARRIER NETTING

Description

MASTER BARRIER MESH NET

The Master orange barrier fencing mesh is an extruded polypropylene plastic mesh ideal for cordoning off building sites, construction sites, sporting event areas and for general crowd and pedestrian control. Orange barrier fencing mesh is UV-stabilised and a bright, high-visibility orange colour for maximum warning.

AVAILABLE IN

- Orange 1m x 50m

MASTER BARRIER WOVEN NET

The Master orange and yellow woven barrier net is a highly visible safety woven net ideal for preventing access to unauthorised areas and also as a visual warning for potential hazard sites. It can be used to cordon off building and construction sites, sporting event areas and in general, for crowd and pedestrian control.

AVAILABLE IN

- Orange / Yellow 1m x 50m
