

STRONGEST LASER TAURUS STR-HW850 3 IN 1 LASER MACHINE

Description

Based on the self-developed “small core diameter” laser technology, the STRONGEST LASER by Taurus STR-HW series handheld laser machine adapts a new dual circuit refrigerant direct cooling system and integrated structural Design, which allows for continuous 24x7 welding. This welding machine is a highly effective, large penetration, high energy-efficiency, and high convenience welding machine. The STR-HW850 welding machines can weld various metal materials such as aluminum, stainless steel, carbon steel, galvanized sheet, brass, etc. The adaptive repair function can regularly run a machine status self check, perform parameter calibration and ensure continuous reliable use throughout the life cycle, without compromising the welding effectiveness.
