

TAURUS ARC200B DUAL-POWER BATTERY WELDING MACHINE – 220V

Description

Experience the freedom to weld anywhere with the cutting-edge TAURUS ARC200B dual-power battery welding machine. Whether you're on-site without access to electricity or plugged into a standard 220V single-phase supply, this innovative machine adapts to your needs.

This compact digital inverter is a true 3-in-1 solution, expertly designed for; MMA arc welding with electrodes up to 5.0mm, Lift-TIG welding and gasless flux-cored MIG welding when the optional spool gun is connected.

Powered by four lithium battery packs, the TAURUS ARC200B provides exceptional portability, while the built-in charger ensures unlimited runtime by efficiently charging the batteries during operation.

Ideal for a variety of applications including farming, fencing, construction, maintenance, and urgent repair work, the TAURUS ARC200B is your reliable partner in any welding task.

Equipped with a smart battery management system, it safeguards the cells from over-charging, over-discharging, and overheating. Additionally, its built-in features; anti-stick, hot-start, and arc-force, ensure a smooth and easy arc, whether you're using battery power or an electric supply.

ACCESSORIES

- Earth-clamp cable kit.
- Electrode-holder cable kit.
- Shoulder carry strap.

OPTIONAL EXTRAS

- TIG torch with valve.
- MIG spool torch.
- Fast dual battery charger.
- Argon flowmeter.

SPECIFICATION	ELECTRICITY MODE	BATTERY MODE
PRODUCT CODE	TA-ARC200B	
MODEL	ARC-200B	
RATED POWER SUPPLY INPUT	220V±10% SINGLE PHASE	4 x 21V 8Ah LITHIUM PACKS
DUTY CYCLE 40°C @ 10 MINUTES	60% @ 200A	N/A
WELDING CURRENT RANGE	5 – 200A	5 – 160A
ELECTRODE SIZE	2.5 – 5.0mm	2.5 – 4.0mm

WEIGHT	11.3kg WITHOUT BATTERIES	15.3kg WITH BATTERIES
WELDING PROCESSES	MMA / LIFT TIG / GASLESS SG MIG	
HOT START / ARC FORCE	5 – 50A ADJUSTABLE	
DIMENSIONS	480 x 195 x 320 mm	

Product Category

1. Taurus Machines
2. ARC Welding Machines
