

TAURUS INVERTER 160A-220V

Description

The TAURUS MMA 160A single phase, 220V stick-electrode welding machine is designed and manufactured to the latest digital-inverter technology for demanding industrial applications. It is a compact light-weight inverter machine which ensures a clean, high-quality weld and excels in basic and rutile electrode welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 25%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. Professional and DIY welders can experience the built-in characteristics of anti-stick, hot-start and arc-force.

ACCESSORIES

- Earth-clamp cable kit.
- Electrode-holder cable kit.
- Toolbox
- Hand-held welding helmet.
- Mini chipping hammer with wire brush.

OPTIONAL EXTRAS

- TIG torch
- Argon flowmeter.
