

TAURUS MIG-140 PORTABLE WELDING MACHINE – 220V

Description

This Taurus MIG-140 welding machine is a synergic semi-automatic welding machine for CO2 and mixed-gas shielded welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 10%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It can weld low carbon steel, low alloy steel, stainless steel, and other components. It uses ?0.8-?1.0 mm diameter stainless steel welding wire, steel wire, flux-cored wire, and other solid wire. It uses 1kg and 5kg wire spools, making it extremely portable and ideal for site work. It is also spool gun compatible.

ACCESSORIES

- Earth clamp cable kit.
- MIG torch.
- Argon flowmeter.

SPECIFICATION	DESCRIPTION
PRODUCT CODE	TA-MIG-140
MODEL	MIG 140
POWER SUPPLY VOLTAGE	220V±10% SINGLE PHASE
DUTY CYCLE 40°C @ 10 MINUTES	25% @ 140A(MIG)
OPEN CIRCUIT VOLTAGE	60V
WELDING RANGE	30 TO 140A
WIRE DIAMETER	0.8 TO 1.0mm [1kg spool]
PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)	370 x 145 x 225mm ? 4.2KG

Product Category

1. Taurus Machines
2. MIG Welding Machines
