

TAURUS MIG-180 PORTABLE WELDER – 220V

Description

This Taurus MIG-180 welding machine is a synergic semi-automatic welding machine for CO2 and mixed-gas-shielded welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 10%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It can weld low carbon steel, low alloy steel, stainless steel and other components. It uses ?0.8-?1.0 mm diameter stainless steel welding wire, steel wire, flux-cored wire and other solid wire. It uses 1kg and 5kg wire spools, making it extremely portable and ideal for site work. It is also spool gun compatible.

ACCESSORIES

- Earth clamp cable kit.
- MIG torch.
- Argon flowmeter.

SPECIFICATION

DESCRIPTION

PRODUCT CODE	TA-MIG-180
MODEL	MIG 180
POWER SUPPLY VOLTAGE	220V±20% SINGLE PHASE
DUTY CYCLE 40°C @ 10 MINUTES	30% @ 180A(MIG)
OPEN CIRCUIT VOLTAGE	60V
WELDING RANGE	30 TO 180A
WIRE DIAMETER	0.8 TO 1.0mm
PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)	425 x 210 x 360mm ? 8.4KG

Product Category

1. Taurus Machines
2. MIG Welding Machines
