

TAURUS MIG 200P SINGLE PULSE PORTABLE WELDER – 220V

Description

This Taurus MIG 200P welding machine is a semi-automatic single-pulse MIG welding machine designed for argon, CO2, and mixed-gas-shielded welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 10%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. Aluminium welding wire (4043/5356), carbon steel (ER50-6/ER70S-6) wire, and stainless steel wire, as well as other solid or flux-cored wires, can be used. It uses 1kg and 5kg wire spools, making it extremely portable and ideal for site work.

ACCESSORIES

- Earth clamp cable kit.
- MIG torch.
- Argon flowmeter.

SPECIFICATION

DESCRIPTION

PRODUCT CODE	TA-MIG-200P
MODEL	MIG 200P
POWER SUPPLY VOLTAGE	220V±10% SINGLE PHASE
DUTY CYCLE 40°C @ 10 MINUTES	30% @ 200A(MIG)
OPEN CIRCUIT VOLTAGE	60V
WELDING RANGE	40 TO 200A (MIG)
WIRE DIAMETER	0.8 TO 1.2mm
PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)	425 x 220 x 355mm ? 10KG

Product Category

1. Taurus Machines
2. MIG Welding Machines
