

TAURUS MIG 250B-PRO PORTABLE BENCH WELDER – 220V

Description

This Taurus MIG 250B-PRO welding machine is a high-performance semi-automatic portable, bench-top welding machine for CO2 and mixed gas shielded welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 10%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It can weld low-carbon steel, low alloy steel, stainless steel, and other components. It uses ?0.8-?1.0 mm diameter stainless steel welding wire, steel wire, flux-cored wire, and other solid wire. It is portable and can be applied to fabrication and other industries. This MIG inverter welding machine has reasonable static characteristics, good dynamic performance, and optimal welding parameters.

ACCESSORIES

- Earth clamp cable kit.
- MIG torch.

- Argon flowmeter.

SPECIFICATION	DESCRIPTION
PRODUCT CODE	TA-MIG-250B-PRO
MODEL	MIG 250B-PRO
POWER SUPPLY VOLTAGE	220V±10% SINGLE PHASE
DUTY CYCLE 40°C @ 10 MINUTES	60% @ 250A(MIG)
OPEN CIRCUIT VOLTAGE	66V
WELDING RANGE	30 TO 250A (MIG)
WIRE DIAMETER	0.8 TO 1.0mm
PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)	485 x 275 x 465mm ? 21KG

Product Category

1. Taurus Machines
2. MIG Welding Machines
