

## TAURUS MIG/MMA-245T COMPACT WELDER – 220V

### Description

This Taurus MIG-245T welding machine is a high performance semi-automatic welding machine for CO<sub>2</sub> and mixed gas shielded welding. The advanced power input system will detect and handle a voltage drop or a spike of up to 25%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It can weld low carbon steel, low alloy steel, stainless steel and other components. It uses 0.8-1.0mm diameter stainless steel welding wire, steel wire, flux-cored wire and other solid wire. It is portable and can be applied to fabrication and other industries. This MIG inverter welding machines have reasonable static characteristics and good dynamic performance and they are manufactured in accordance with IEC60974-1, Safety Requirements for Arc Welding Equipment.

### ACCESSORIES

- Earth clamp cable kit.
- MIG torch.
- Argon flowmeter

### SPECIFICATION

**PRODUCT CODE**

**MODEL**

**POWER SUPPLY VOLTAGE**

**DUTY CYCLE 40°C @ 10 MINUTES**

**OPEN CIRCUIT VOLTAGE**

### DESCRIPTION

TA-MIG245T

MIG245T

220V±25% SINGLE PHASE

35% @ 240A ? 35% @ 220A(MMA)

58V

---

<b>WELDING RANGE</b>	50 TO 240A
<b>WIRE DIAMETER</b>	0.8 TO 1.2mm
<b>PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)</b>	640 x 370 x 450mm ? 18.9KG

**Product Category**

1. Mig Welders
2. Taurus Machines

**Date Created**

29 Jul 2025
