

## TAURUS MIG/MMA-300TD COMPACT WELDER – 380V

### Description

This Taurus MIG-300TD welding machine is a high performance semi-automatic welding machine for CO<sub>2</sub> and mixed gas shielded welding. It can weld low carbon steel, low alloy steel, stainless steel, galvanized sheet, copper and other components. It uses 0.8-1.2mm diameter stainless steel welding wire, steel wire, gasless wire and other solid wire. The advanced power input system will detect and handle a voltage drop or a spike of up to 15%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It can be applied to electric power construction, shipbuilding, machinery manufacturing, building construction, fabrication and other industries. This MIG inverter welding machines have reasonable static characteristics and good dynamic performance and they are manufactured in accordance with IEC60974-1, Safety Requirements for Arc Welding Equipment.

### ACCESSORIES

- Earth clamp cable kit.

- MIG torch.
- Argon flowmeter

## **SPECIFICATION**

**PRODUCT CODE**

**MODEL**

**POWER SUPPLY VOLTAGE**

**DUTY CYCLE 40°C @ 10 MINUTES**

**OPEN CIRCUIT VOLTAGE**

**WELDING RANGE**

**WIRE DIAMETER**

**PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)**

## **DESCRIPTION**

TA-MIG300TD

MIG300TD

380V±15% THREE PHASE
