

TAURUS MIG/MMA-250TD COMPACT WELDER – 220V

Description

This Taurus MIG-250TD welding machine is a high performance semi-automatic welding machine for CO₂ and mixed gas shielded welding. It can weld low carbon steel, low alloy steel, stainless steel, galvanized sheet, copper and other components. It uses 0.8-1.2mm diameter stainless steel welding wire, steel wire, gasless wire and other solid wire. The advanced power input system will detect and handle a voltage drop or a spike of up to 25%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It can be applied to electric power construction, shipbuilding, machinery manufacturing, building construction, fabrication and other industries. This MIG inverter welding machines have reasonable static characteristics and good dynamic performance and they are manufactured in accordance with IEC60974-1, Safety Requirements for Arc Welding Equipment.

ACCESSORIES

- Earth clamp cable kit.
- MIG torch.
- Argon flowmeter

SPECIFICATION

PRODUCT CODE

MODEL

POWER SUPPLY VOLTAGE

DUTY CYCLE 40°C @ 10 MINUTES

DESCRIPTION

TA-MIG250TD

MIG250TD

220V±25% SINGLE PHASE

60% @ 250A

OPEN CIRCUIT VOLTAGE	52V
WELDING RANGE	50 TO 250A
WIRE DIAMETER	0.8 TO 1.2mm
PACKAGE DIMENSIONS(MM) AND NET WEIGHT(KG)	740 x 375 x 750mm ? 41KG

Product Category

1. Mig Welders
2. Taurus Machines

Date Created

29 Jul 2025
