

## TAURUS MMA-400L HEAVY DUTY WELDER – 380/525V

### Description

This Taurus MMA400L is a dual voltage, 400A DC MMA welding and gouging inverter machine. With its high-power IGBT and advanced inverter technology, it has good dynamic characteristics, stable arc, good welding quality and is easy to control, etc... The advanced power input system will detect and handle a voltage drop or a spike of up to 15%. This will not only safeguard the machine against damage resulting from erratic power supply, but will also ensure smooth, uninterrupted operation. It is widely used in mining, petrochemical industry, electric power construction, shipbuilding, machinery manufacturing, building construction, indoor and outdoor decoration, hardware products, furniture manufacturing, kitchen equipment and other industries. The Taurus MMA400L has a reasonable static and external characteristics and good dynamic performance. It is manufactured in accordance with safety requirements for arc welding equipment, IEC60974-1, Safety Requirements for Arc Welding Equipment.

### ACCESSORIES

- Earth clamp cable kit.

- Electrode holder cable kit.
