TAURUS LY800P PREMIUM BLACK AUTO DARKENING WELDING HELMET

Description

The Taurus Premium Pro Auto-Darkening Helmet has the same quality specifications as the Taurus LY600A auto-darkening helmet. However, the variable shade-change, sensitivity, delay time and grinding mode are digitally controlled. It is also equipped with TruVision technology which allows the welder to see the weld pool as well as the increased colour spectrum more clearly. The pivot-head gear has four adjustable positions for stability, desired tightness, eye distance from the lens and forward tilt. The visor-up position offers an extended view for grinding operations.

SOME KEY FEATURES

- Panoramic View.
- Variable Shade Adjustment (9-13).
- Truvision Solar Auto-darkening LCD Filter.
- Flip-up Large Grinding View.
- Superior Lens Technology.
- High Impact Resistance.
- Pivot Headgear.
- Side Window.
- Digital Control with LCD Display.

SPECIFICATION	VALUE
VIEWING AREA	108mm x 74mm
GRINDING FUNCTION	Yes
OPTICAL CLASS	1/1/1/1
TRUVISION TECHNOLOGY	Yes
UV/IR PROTECTION	Permanent
ARC SENSOR	4 + 1(ambient light)
SWITCHING TIME	0.04ms
SOLAR CELL	Yes
BATTERY	Li-battery (2 X CR2450)
TIG RATING	2A – 350A
LIGHT STATE	DIN 3/4
DARK STATE	DIN 7 – DIN 13
AUTO-SHADE DEVIATION	-2.0 to +2.0
DELAY TIME	0.04s to 2.0s
OPERATION TEMPERATURE	-10°C to +60°C
INTERNAL DIGITAL CONTROL	Memory, manual-shade, sensitivity and delay time

Product Category

1. Eye Protection
2. Safety Equipment
3. Welding PPE
