

# TAURUS PRO BZ40 MIG TORCHES

## Description

Taurus BZ Pro MIG torches are precision-engineered and manufactured from high-quality materials, offering the user a superior, well-designed, comfortable-to-use product that improves user performance. Nozzle walls are thicker, which enhances longevity and superior performance. Contact tips are manufactured from a high-quality, harder-than-normal copper alloy which delivers excellent conductivity. The swan neck is durable, robust, and is manufactured from a high-temperature-resistant material, reducing the risk of shorting. The neck security block inside the handle prevents any rotational neck movement. The torches are fitted with a euro connector which is compatible with most MIG welding machines.

**General checklist to assist with the selection of a MIG torch:**

- Ensure the torch length is appropriate for the welding operation.
- Confirm that the torch connection will fit directly onto the machine.

- Ensure the correct-sized tip and liner are used for the welding wire size.
- The appropriate liner should be used for the filler wire material type.
- Ensure that the correct torch amperage for the application is available.
- Confirm that the duty cycle of the MIG torch selected is suitable for the application.

**The Taurus BZ40 / MB40 MIG torch comes with the following;**

- 1 x BZ40 MIG torch
- 1 x BZ40 Conical Nozzle/Shroud
- 1 x BZ40 Gas diffuser
- 1 x 1.2mm M8 contact tip
- 1 x Right hand M8 tip adaptor
- 1 x Yellow steel liner

# BZ40 MIG TORCH REPLACEMENT CONSUMABLES

### BZ40 – M8 CONTACT TIPS

- 0.8mm [M8-0.8]
- 0.9mm [M8-0.9]
- 1.0mm [M8-1.00]
- 1.2mm [M8-1.20]
- 1.4mm [M8-1.40]
- 1.6mm [M8-1.60]
- 1.8mm [M8-1.8]
- 2.0mm [M8-2.00]

**BZ40 TIP ADAPTOR**

- M8 [02.03.40]

## BZ40 GAS DIFFUSER

- [02.05.40]

## BZ40 NOZZLE

- Conical [02.02.40CO]

### BZ40 STEEL LINERS

- Yellow (1.2mm – 1.6mm) : 4.4m [02.04.P4]
- Yellow (1.2mm – 1.6mm) : 5.4m [02.04.P6]
