

TAURUS PRO BZ501 MIG TORCHES

Description

General checklist to assist with the selection of a MIG torch:

- Ensure the torch length is appropriate for the welding operation.
- Confirm that the torch connection will fit directly onto the machine.
- Ensure the correct sized tip and liner is used for the welding wire size.
- The appropriate liner should be used for the filler wire material type.
- Ensure that the correct torch amperage for the application is available.
- Confirm that the duty cycle of the MIG torch selected is suitable for the application.

The Taurus BZ501 / MB501 watercooled MIG torch comes with the following;
