

## TAURUS UNIVERSAL WELDING AND CUTTING KIT

### Description

The TAURUS combination kit is a starting kit for general brazing, welding and cutting with oxygen and acetylene gas. It can be extended to suit personal and job requirements. The equipment is presented in a secure, robust toolbox. The inlet fittings on the regulators are G 5/8" – B-rh on the oxygen side and B-lh on the acetylene side. The fittings are compatible with industrial size gas cylinders in South Africa.
